Scott:

I wanted to thank you for the extremely informative, emotional, and truly enjoyable presentation you conducted for us here at BCBS.

At your presentation, there was not a dry eye in the room, and certainly you could hear a pin drop the entire time you spoke. I realized how life changing your story was to me. You see, in my early twenties, I was a goal setter, and had the gut driven inspiration to not stop at obtaining any goal I set. I have since lost this over the years, due to major priorities, and the changing of my focus off of me in becoming a single mother.

However, I realized my potential, and the drive I once felt. At that very moment in time, I felt it again! It was such an awesome feeling, and I thank you for that.

Also, my teenage son would benefit greatly from hearing your presentation, to show him determination, persistence, and sheer gut driven inspiration, which would motivate him to become a better person. I could see where he would stop at nothing to reach a goal, and he could be a part of the 1/3 of the population, such as yourself, that soar above their dreams.

Again, thank you for the wonderful experience, I told my entire family about you and sent them your website.
