Dear Scott,

I just want to share with you an encounter that happened a few minutes ago with one of our surgical technologists. She stopped me to say that listening to you made her decide to pursue her dream of getting her psychology degree. She told me that all those other speakers or things we present, usually pertain only to the RN's and have little meaning for the techs. But "that guy" made me decide to do what I've always wanted to do."

I can't tell you how many people have stopped me in the hall to thank me for bringing you here. Talk about making a difference! You're the greatest!

The Women's Center OR, who weren't able to attend that day, want to know if you'll come back. Their meeting time is 7a-8a on the 3rd Thursday of the month. Let me know which month you can come and I'll make the arrangements.

God bless you for what you've accomplished and for sharing your story!
Marcia
