Scott,

I have to take a moment to express my deepest gratitude. Your emotional and inspiring presentation at our recent SPIRIT DAY event could not have been more perfectly suited to our theme, "It's Up To ME."

You captivated the entire audience driving them from laughter to tears and doing it all the while, straight from the heart. Through your courageous sharing, our team bonded with a sense of group purpose at a level I have never witnessed. It was amazing! And on an individual level, each team member re-connected with their inner drive and spirit. Again, a perfect fit with our theme. Your passionate message surrounding the "WHAT" questions versus the "WHY" questions, still resonates at every company meeting. That is very powerful!

Scott, you have an extremely special gift of sharing your life, your valuable lessons, in a way that individuals of any age can both embrace and ignite the powerful, positive change needed in organizations worldwide. Thank you with all my heart, for leaving such a profound imprint on our organization.

Warm Regards,

Sue Geiss
