Dear Scott,

I'm sure you know from experience that a speaker for a large conference is extremely important. The Florida Turfgrass Association Conference & Show Committee had a goal to select a speaker who would impress our audience, which you did exactly that!

Your inspirational presentation on "Stand Up to Your Challenges" set the tone for the entire conference with your dynamic personality and your life experiences. You definitely had our *full* attention. Many people in the audience told me how amazed they were by your accomplishments. You were a significant part of the 54th Annual Conference and Show success.

Thank you very much and I look forward to working with you again.

Sincerely,
