Scott,

Your message at our first joint Manufacturing/Sales Meeting was very inspirational to our group. You exceeded my expectations in sharing your message and connecting to our team. Your ability to weave in your specific story and your message of vision, mindset and grit to universal business and personal concepts was well received. I believe everyone came out of the meeting embracing the absolute importance of leadership and risk taking and not giving up in order to help us in our journey to becoming a world-class organization.

Thank you for an inspirational message to help us continue to pursue Success within our organization.

Sincerely,

Leticia Garcia
