

INTRODUCTION

Our next speaker has an unforgettable, life-changing story that proves that limits can be exceeded, barriers broken and that no circumstances can ever destroy the power of the human spirit.

By the age of 19, he was playing college football at Florida State University and was a top-ranked kick-boxing Black Belt champion, having his last fight broadcast by ESPN.

That same year, however, our speaker's life changed dramatically. He was involved in a terrible accident that left him paralyzed from the chest down and diagnosed a quadriplegic.

Despite his grim diagnosis, he refused to be sidelined.

Today, as a motivational speaker and bestselling author, he travels the world demonstrating firsthand how the most overwhelming of setbacks in both your personal and professional life can be converted into success, fulfillment and personal realization through a compelling Vision, an unstoppable Mindset and tremendous Grit.

By the way, his book... ***Vision Mindset Grit***... will be made available following his presentation.

Now, to give you an idea of how he lived and what he went through after his life-changing accident, let's watch this 90-second **Video**...
